You can see my works here: <https://timdancan.github.io/Portfolio/>

PERSONAL QUALITIES

I know how to perceive information, correctly ask questions and present information (if within an hour I myself have not found the answer to the question, then I will ask for help)

I find a common language with different types of people (and with animals too, if there are any in the team)

EXPERIENCE

STUDENT

Yandex.Praktikum (Web development)
from 09.2020 to the present time

Creating responsive sites using flex-box and grid according to "BEM" methodology. Using animations and transformations, connecting widgets and iframes. During development the GIT version control system, Figma were used. JavaScript of ES6 standard was used to create web interfaces. Basics of object-oriented programming.

ABOUT ME

After graduation, I tried myself in different professions, I didn't like anything. At some point I left for Italy, during quarantine I took a free course from HTML Academy and I liked it.

About hobbies:

I work out in the gym and can recommend a good TV show or movie.

EDUCATION

YANDEX.PRAKTIKUM

Web development
form 09.2020 to present time

KNUME
